How to Use EBSCOhost Citation Generator

Below are the directions to access the Virtual Library resources and use the EBSCOhost citation generator to make APA citations:

1. Log in to mybsc https://mybsc.bryantstratton.edu

2. Click on College Virtual Library Off Campus/Online or On Campus
3. Enter your keyword(s) in the search box and click the search button. You can also click the Advanced Search link below the box to narrow down or broaden your search results.

4. From the search results page, choose the resource you want and click on the title link.
5. On the selected resource page, click on the **Cite** button located on the right hand side of the page.

6. From the citation format list page, select APA References, then copy and paste the APA reference citation to your Word document paper’s reference page and format the page based on the APA reference page’s rules. Remember to create the corresponding in-text citation and insert it in the paper. Also remember to set up the entire APA paper’s layout, such as the running head, page number, text font, and double space etc..
